ASSISTANT DIRECTOR

UNITED STATES ARMS CONTROL AND DISARMAMENT AGENCY

DOC/XC 5424/83

February 23, 1983

25X1

[Redacted]
Director, Intelligence Community Staff
Community Headquarters Building
Washington, D.C. 20505

Dear [Redacted]

25X1

The U.S. capability to determine the weight of Soviet reentry vehicles (RV's) from data obtained during the Soviet ICBM test program is very important for the verifiability of limits under consideration for START.

25X1

I believe that improvements, at least in the collection probability, are urgently needed and that without such improvements the degree of verifiability of RV weight limits may be such that questions may be raised as to whether they are effectively verifiable.

I would appreciate if if you could take the steps necessary for the validation of the requirement for [redacted] and, if warranted, (as I believe it is), to cause GDIP/AF funds to be allocated.
